

Display Information Table

Set up an information display table on campus, at your National Health Service Corps (NHSC) site, at a local grocery store, or at a community center to educate the community about the importance of primary care and the role of the NHSC in providing care to those who need it most.

LEVEL OF PLANNING EFFORT

EASY

DIFFICULT

What is the Goal?

To educate members of the community, including parents, teachers, high school students, college students, health professions students, and health professionals about how the NHSC can support students and clinical providers.

Planning Ahead

- 1. Secure a table** at a busy location on your campus or in your community; make sure you obtain approval from college or community authorities. Remember to inquire if they are able to provide a table and at least two chairs and, if needed, a tent.
- 2. Confirm an event date** anytime during the month of October. Remember, the Corps Community Day 2013 national event will take place on **Thursday, October 10**, during National Primary Care Week.
- 3.** If someone will be able to staff the table, **consider inviting someone who can share about their experience providing health care at an NHSC site.** Print materials about the NHSC from the website to display on the table and bulletin boards. Also, consider asking others to help you staff the table, such as local NHSC Ambassadors, alumni, and other potential partners. In addition, Corps Community Day 2013 coincides with the nationwide registration for the [Health Insurance Marketplace](#), so consider distributing materials to let uninsured individuals know about the open enrollment period to sign up for affordable health care insurance.
- 4. Share your event with NHSC** using the online event form so it can be posted on the national event map.
- 5. Send photos and event results** to CorpsCommunityDay@hrsa.gov or upload on [Flickr](#).

Identify Qualified Speakers

- [Ambassador Directory](#)
- [State Primary Care Office](#)
- [Area Health Education Center](#)
- Post a speaker request on the NHSC Facebook wall
- Special Inquiry to the NHSC at CorpsCommunityDay@hrsa.gov

Things to Consider

- ☐ What other activities should take place at the event?
- ☐ Could you set up a laptop and show [NHSC member story videos](#)?
- ☐ Who will be taking photographs? Remember to use a general photo release form.
- ☐ Are there other organizations with whom you could partner?
